Subject: Acquisition of Amasus Investment AG's activities by Amadeus Capital SA

Dear Client,

We are pleased to announce that an agreement has been reached between **Amasus Investment AG** and **Amadeus Capital SA** regarding the takeover of business activities. Under this agreement, all activities carried out by the Amasus teams will continue in Zurich under the name Amadeus Capital SA.

This step represents an important strategic development for both companies and, above all, strengthens and ensures the continuity of our commitment to you.

As part of this transaction, all Amasus employees will be integrated into Amadeus, ensuring the continuity of personal relationships, the preservation of local expertise and the stability of the services offered. This integration will also strengthen synergies between the teams and ensure smooth and individual support.

Although Amasus was only founded in 2014, the relationship between the shareholders of Amasus and Amadeus has existed for over 30 years, particularly through their joint involvement in Turicum Private Bank in Gibraltar. Having worked together for many years, the partners share a common vision of asset management based on trust, excellence, performance and sustainability.

Amadeus Capital SA has established itself as a recognised player in asset management and financial product management over more than 40 years, thanks to continuous investment in technological tools, strict quality and compliance processes, and ongoing training and development of its teams. This acquisition will enable Amadeus to expand its presence in Zurich, one of Switzerland's most important financial centres, and further develop its activities in a dynamic and challenging environment.

For Amasus' partners and employees, this transaction opens up the opportunity to approach the future with confidence and ensure continuity of service for their clients at the usual standard of quality.
